User Manual

Table of Contents

This user manual contains important safety instructions and information for proper use of the device. Please follow the instructions in this manual carefully.

A Please keep the device away from places with high temperatures, high humidity or dust.

B In particular please avoid leaving the device in the car during summer if the doors are closed.

C Avoid shocks and do not let the device fall, as otherwise it may cause damage to the device.

D The Standby Time of the batteries may vary due to different environmental influences.

E We are not responsible for data losses that are caused by damage to the product, repairs or any other reasons.

F Do not open the housing of the device. Doing this will void your warranty claims.

G Do not use alcohol, thinners or petrol to clean the display
– use only a dry cloth.

FCC NOTE：

This device complies with Part 15 of the FCC Rules.
 Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

 THE MANUFACTURER IS NOT RESPONSIBLE FOR ANY RADIO OR TV

INTERFERENCE CAUSED BY UNAUTHORIZED MODIFICATIONS OR CHANGE

TO THIS EQUIPMENT. SUCH MODIFICATIONS OR CHANGE COULD VOID AND

 CHANGE ANNTENA WHICH THE MANUFACTURER PROVIDES.

IT IS THE USER'S AUTHORITY TO OPERATE THE EQUIPMENT.

This equipment has been tested and found   to comply with the limits for a Class B digital device, pursuant to part 15 of the   FCC Rules. These limits are designed to provide reasonable protection against harmful   interference in a resi dential installation. This equipment generates, uses and can   radiate radio frequenc y energy and, if not installed and used in accordance with the in   structions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular insta llation. If this equipment does   cause harmful interference to radio or television reception, which can be   determined by turning the equipment off and on, the user is encouraged to try to corr   ect the interference by one or more of the following measures:

-- Reorient or relocate the receiving antenna.

-- Increase the separation between the equipment and receiver.

-- Connect the equipment into   an outlet on a circuit different from that to which the receiver is connected.

-- Consult the dealer or an experien ced radio/TV technician for help.

To maintain compliance with FCC's RF exposure guidelines, this equipment should be installed and operated with a minimum distance of 20cm between the radiator and your body.
